

SEMI-AUTOMATIC SEAL APPLICATOR

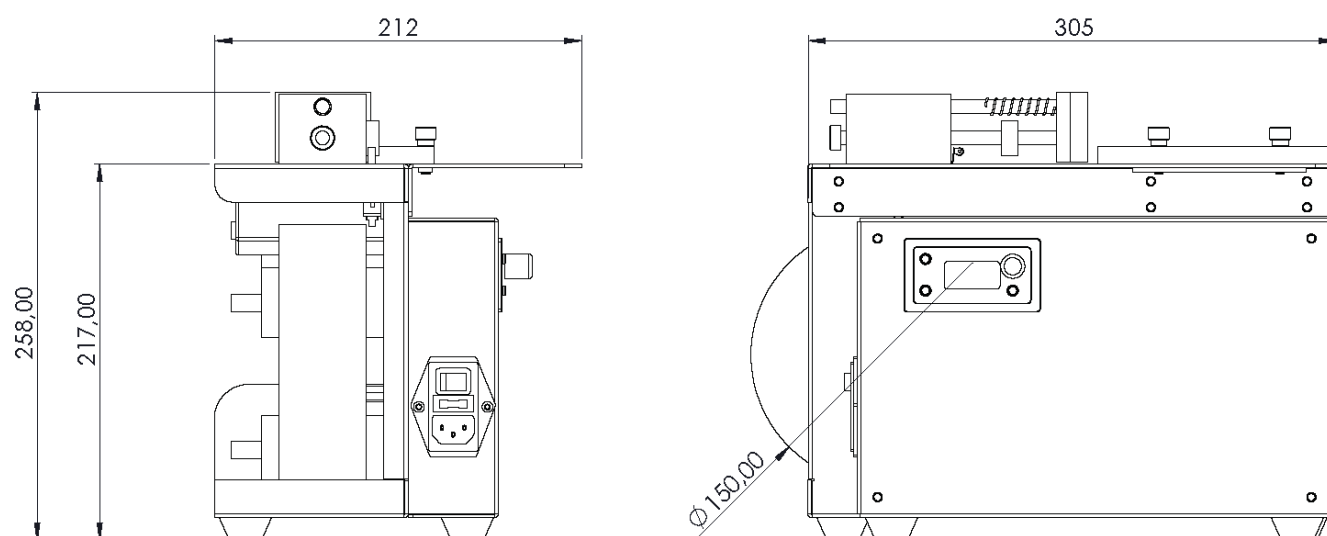

Pk-TAMP

DESCRIPTION

Pk-TAMP is a semi-automatic applicator of seal and security labels called Tamper Evident Seal. Pk-TAMP can apply transparent or non-transparent round or square self-adhesive labels from 15 to 40mm. It applies typically round labels on the edges of cans to seal and guarantee the safety and integrity of the products. Non-removable tamper-proof labels can also be used. Compact and solid, it is built entirely of aisi304 stainless steel to be used even in particular environments. Adjustable label position to optimize the application point. Very simple to use and very effective.

TECHNICAL FEATURES

DESCRIPTION	Pk-TAMP
